Wikipedia and Wikidata - A Sample Article

Christof Schöch

Abstract

This is a short sample article with little content.

1 Introduction

Wikidata is a *collaboratively* edited multilingual knowledge graph hosted by the **Wikimedia Foundation**. It is a common source of open data that Wikimedia projects such as Wikipedia, and anyone else, can use under the CC0 public domain license. Wikidata is powered by the software Wikibase (Markus Krötzsch and Denny Vrandečić[1]).

Figure 1: The Wikidata logo resembles a barcode, but is more colorful.

1.1 First Argument

Wikidata is a *collaboratively* edited multilingual knowledge graph hosted by the **Wikimedia Foundation**. It is a common source of open data that Wikimedia projects such as Wikipedia, and anyone else, can use under the CC0 public domain license. Wikidata is powered by the software Wikibase (Peter Burke[2]).

[2] *A Social History of Knowledge II: From the Encyclopaedia to Wikipedia*, 1st ed. (Oxford, Boston: Polity, 2012).

1.2   Second Argument

Wikidata is a *collaboratively* edited multilingual knowledge graph hosted by the **Wikimedia Foundation**. It is a common source of open data that Wikimedia projects such as Wikipedia, and anyone else, can use under the CC0 public domain license. Wikidata is powered by the software Wikibase (Denny Vrandečić and Markus Krötzsch[3]).

2   Conclusion

Wikidata is a *collaboratively* edited multilingual knowledge graph hosted by the **Wikimedia Foundation**. It is a common source of open data that Wikimedia projects such as Wikipedia, and anyone else, can use under the CC0 public domain license. Wikidata is powered by the software Wikibase.
